

This is a placeholder. I tried to upload a PowerPoint presentation, but was not allowed...

Anyhow, the PowerPoint presentation is something that I have been giving for almost 2 years now all over the place (UCLA, Wisconsin, Brown, Duke, Maryland, East-West Center, Penn), but only to demographers (or, here at Penn, econometricians). The only people who heard it who actually were doing school enrollment work were Dick Berk (then at UCLA, now here at Penn!) and Paul Voss and people at his unit. Anyhow, I would like to move toward a paper, and this is a first crack at it. If you want to see the slides, let me know and I will e-mail them to you (although did I do that last year?) But, if life goes well, by the PAA meetings maybe there will be a paper.
